Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8/17/2006 has been entered.

Claim Objections

2. Claims 24 and 25 are objected to because of the following informalities:

In claim 24, line 11, -- to transmit -- is recommended to insert before "signal".

In claim 25, line 3, "ewhich" should be changed to -- which --.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 18, 19, and 23-30 are rejected under 35 U.S.C. 102(e) as being anticipated by Walton et al (US 2002/0154705).

Walton et al (Walton) discloses a communication device for transmitting and/or receiving OFDM signals in a multicarrier transmission system (FIG. 3 and 6, paragraph 0044), the communication device comprising:

a plurality of antenna elements (FIG. 6) for receiving the OFDM signals which are transmitted by using a plurality of sub-carriers being used for the transmission of the OFDM signals carrying data in the multicarrier transmission system; and

a processing device (a communication device having a transmit unit 110 and a receive unit 120) for calculating phases of each of the plurality of subcarriers used for the OFDM transmission (obtaining CSI by the receiver unit) and adjusting (pre-conditioning) each phase of subcarriers in a subsequent communication process (by the transmitter unit) in accordance with the calculated phases (CSI) to reduce a multipath fading, i.e., channel state information (CSI) regarding characterization of a propagation path is provided to a transmitter to further improve performance and increase efficiency in a subsequent communication process and the CSI includes phase information of all subcarriers (paragraphs 0059-0060).

Allowable Subject Matter

5. Claims 1-17 are allowed.

Conclusion

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Soon D. Hyun whose telephone number is 571-272-3121. The examiner can normally be reached on M-F.
